PRE-EMPLOYMENT MEASURE

Pre employment support (PES) is on its second year of it's last term that consists of a continuum of services and programming aimed at increasing an Income Assistance client's employability to help address barriers to employment.

PES the form Enhanced Service Delivery provides individual client supports based on your needs. We use a client-centered approach case management model, to 18-24 year old Income Assistance clients to prepare them for the workforce.

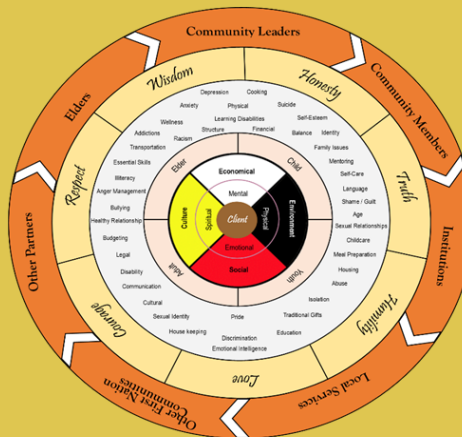

PES is delivered in conjunction with our Gesgapegiag Human Resource Development (GHRDC). Clients who are ready or have completed their academics may possibly transition to the next step for skills specific training or directly to employment.

EACH CLIENT IS UNIQUE!

IA CAREER COUNSELLOR

The Income Assistant Counselor will provide individual client centered assessments. Once your assessment is complete an Action Plan will be developed. The purpose of this step will identify how a client plans to remove barriers to their employment and develop the necessary skills and enter an educational program that can lead to training and employment.
